

Phishing Email Detection & Awareness Report

1. Email Overview

Subject: Urgent: Your Account Will Be Locked
Sender: support@secure-account-verify.com
Type: Phishing

2. Email Content

The email claims suspicious activity and urges immediate verification through a link.

3. Indicator Analysis

Indicator	Found	Explanation
Urgency	Yes	Creates panic using 'immediate action required'
Suspicious Link	Yes	Non-official domain used
Generic Greeting	Yes	Uses 'Dear User'
Fake Domain	Yes	Does not match real company

4. Link Analysis

The link <http://secure-account-verify.com> is not secure (no HTTPS) and mimics a legitimate service.

5. Risk Classification

Risk Level: Phishing (High Risk) | Score: 8/10

6. How the Attack Works

Attackers create fake emails with urgency and malicious links to trick users into entering credentials.

7. Prevention Guidelines

Do's: Verify sender, check URLs, use official sites.
Don'ts: Click unknown links, share OTPs, trust urgent emails blindly.
